New Self-Help Book for Women Works to Correct Wealth Gap Between Genders

Author Terrell Dinkins's New Book, One Bucket at a Time, Gives Women Tips and Tricks for Financial Success

Atlanta, GA – “Despite all of our educational advances, women are still behind when it comes to accumulating wealth,” says Terrell Dinkins, financial advisor and author of the new self-help book for women, *One Bucket at a Time*.

Having learned the value of saving and money management at a young age, Terrell, who is personally endorsed by the president and CEO Of the DeKalb Chamber of Commerce, hopes to share this wisdom with other women who are hoping to build their wealth but aren't sure just where to begin.

Her advice couldn't have come at a better time. According to a research study conducted in early 2015, women at retirement age have acquired less than 50% of the wealth that men have acquired at the same age—an issue even more detrimental when taking into consideration women's longer life spans, wage gaps, and other financial burdens that disproportionately affect women.

“We need to be prepared for the long haul and know how to strategically fill our money buckets,” explains Terrell.

One Bucket at a Time: A Woman's Guide to Creating Wealth presents Terrell's principled approach to investing and wealth building. Using her extensive financial knowledge and experience working with clients, she reveals her unique wealth-building system to help women—and people from all walks of life—get their finances under control and put them on a path of financial prosperity.

One Bucket at a Time is available now through Amazon.com, OneBucketNation.com, and Shop.BookLogix.com.

TERRELL DINKINS ON WRITING ONE BUCKET AT A TIME

What inspired you to write *One Bucket at a Time*?

I was inspired by a business associate who came to see me and learn more about my financial advisory practice. When she heard my bucket message, she said, “You need to write a book and get your message out to everyone, and not reserve it for your clients.” Writing a book was on my bucket list (no pun intended), but I had no previous intentions of writing it this soon. I am very happy my associate gave me the little extra nudge I needed to write it now rather than later!

How is *One Bucket at a Time* different from other financial self-help books?

I am personally transparent in the book—about my own finances, as well as my journey to financial freedom. Most finance books only provide steps and guidelines on wealth building, but you don’t always know the writer who is recommending the steps. In addition to my own personal story, I provide steps and share examples of financial struggles others have in dealing with money. The reader will be able to identify with many of the examples from the book. The book will definitely leave readers inspired to change their behaviors with money!

Why should women buy this book?

Women have the most to lose if they don’t read this book and get their financial houses in order. Despite all of our educational advances, women are still behind when it comes to accumulating wealth. The wealth gap between men and women in this country and around the world is heavily debated and rightfully so. Because of divorce, widowhood, or remaining single, many of us will have to carry the financial load alone. We need to be prepared for the long haul and know how to strategically fill our money buckets.

ONE BUCKET AT A TIME
