EXPERIENCED FINANCIAL ADVISOR HELPS READERS OUTSMART “CREDIT SCORE” SCAMMERS

Terrell Dinkins’s New Book Helps You Keep Money in Your Pocket with a Better Credit Score

Alpharetta, GA— Having poor credit costs you money, and author and financial advisor Terrell Dinkins is on a mission to help you keep your money with the lessons in her new book, *Secrets of the 800+ Club*.

Dinkins, who is also the author of *One Bucket at a Time: A Woman’s Guide to Creating Wealth*, has seen too many people get taken advantage of by scammers who promise magical fixes to credit scores for a hefty fee. These scammers know that their victims are vulnerable and desperate to raise their score. When dealing with a low credit score, it can feel like people who have a score of 800 or higher are part of some kind of special “Club.” *Secrets of the 800+ Club* teaches readers how to raise their credit score like members of the “Club.”

The unfortunate reality of our economic structure is that people who have low credit scores pay thousands of dollars more in fees than those with excellent credit. *Secrets of the 800+ Club* gives solutions to fix low credit scores and poor credit. With decades of experience as a financial planner and advisor, Dinkins will help readers stay accountable, and be successful, in their mission to improve their credit score.

“Having excellent credit is like having insurance. You feel assured that you will receive the best rates,” Dinkins says. “If you follow the action steps in *Secrets of the 800+ Club*, you will gain confidence in knowing how to change your score quickly and highly likely to receive a ‘Yes’ when applying for credit.”

Secrets of the 800+ Club, as well as Dinkins’s first book, *One Bucket at a Time*, are available on Amazon.com, BarnesandNoble.com, OneBucketNation.com, Shop.BookLogix.com, and more.

MEET AUTHOR TERRELL DINKINS

“As a professional planner and financial advisor, I provide insight based on my decades of experience working with people and their debt. I don’t have a rock bottom story of how I pulled myself up by the bootstraps. You don’t always have to hit rock bottom to be successful. I teach my readers, just as I learned from the beginning, to take the elevator down from the tenth floor and not jump. If you learn the secrets early as I did, you never have to suffer from poor credit and a low credit score. There’s no need to get bruised and banged up to learn lessons.”
